

Interleaved 2 of 5 encoder test.

Test 1: one simple barcode with default parameters:

input code 54654681: A 1D barcode representing the code 54654681. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides.

Test 2: one simple barcode with default parameter:

input code 1234567895: A 1D barcode representing the code 1234567895. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides.

Test 3: one simple barcode with check digit automatically added:

input code 454473: A 1D barcode representing the code 04544739. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides.

Test 4: a second simple barcode with check digit automatically added:

input code 74223: A 1D barcode representing the code 742238. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides.

Test 5: a symbol with native check digits:

input code 121891259: A 1D barcode representing the code 0121891259. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides.

Test 6: bearer bars please:

input string "747867239": A 1D barcode representing the code 0747867239. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides. There are thick horizontal bars above and below the main barcode area.

Test 7: bearer bars all around the symbol:

input code 986790868: A 1D barcode representing the code 0986790868. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides. There are thick horizontal bars above and below the main barcode area.

Test 8: bearer bars all around the symbol (with string constructor):

input string "986790868": A 1D barcode representing the code 0986790868. The code is printed below the bars. The entire barcode is enclosed in a rectangular frame with vertical bars on the left and right sides. There are thick horizontal bars above and below the main barcode area.

That's all folks!
